Non-Responsive Amendment

1. The reply filed on 10/7/02 is not fully responsive to the prior Office Action because: amendment made to the claims does not encompass the previously claimed invention which is drawn to a sensor layer. It is noted that the newly submitted claims are drawn to a system which only includes the sensor layer. Applicant is advised to delimit the claims to the sensor layer since it is currently under prosecution. Applicant is requested to note that a claimed invention may not be changed at midstream while under prosecution. Since the period for reply set forth in the prior Office action has expired, this application will become abandoned unless applicant corrects the deficiency and obtains an extension of time under 37 CFR 1.136(a).

The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. In no case may an applicant reply outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE (5) MONTHS beyond the date for reply set forth in an Office action. A fully responsive reply must be timely filed to avoid abandonment of this application.
